

EPA is Proposing to Monitor NO₂ Concentrations Near Roads in 142 Urban Areas

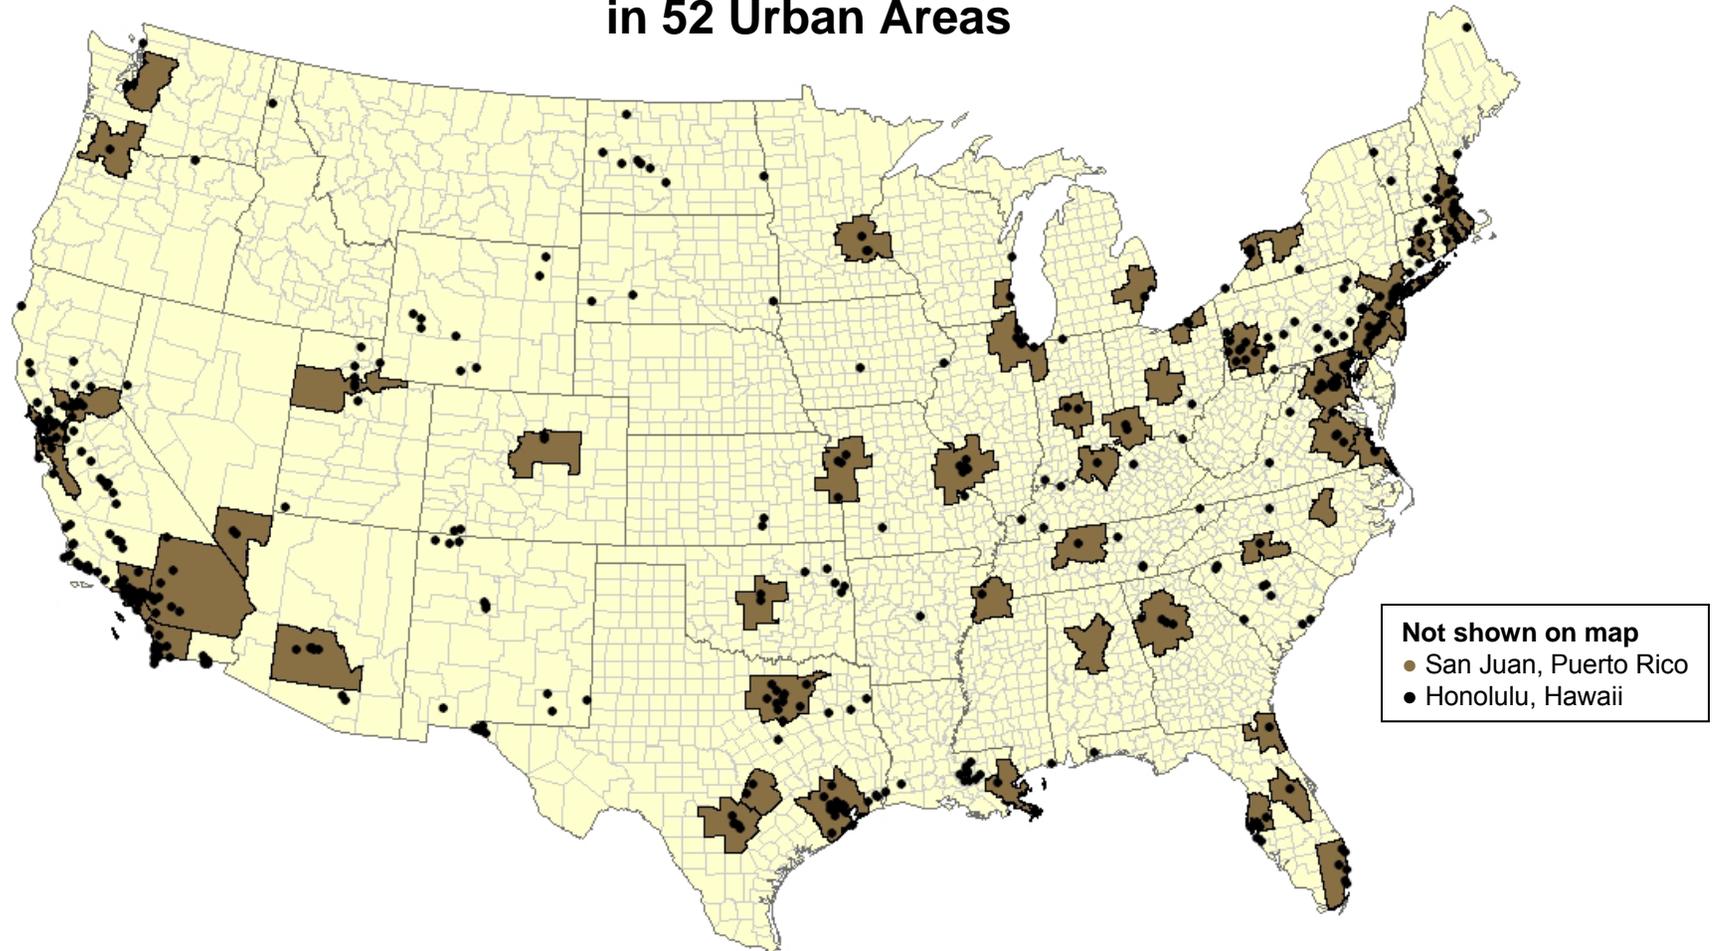

Proposed Minimum Near-Road NO₂ Monitoring Requirements

- ◆ 119 areas would require 1 monitor
(≥ 350,000 population)
- ◆ 23 areas would require 2 monitors
(≥ 2.5 million population or
road segments with annual average daily traffic counts ≥ 250,000 vehicles)

165 total monitors

EPA is Proposing to Monitor NO₂ Concentrations Community-Wide in 52 Urban Areas

Proposed Minimum Community-wide NO₂ Monitoring Requirements

- ◆ 52 areas would require 1 monitor
(≥ 1 million population)
- 418 existing NO₂ monitoring sites in 2008
Many of these sites would satisfy the proposed community-wide monitoring requirements.
